

P-840

PENET OIL P-840 (Fast Permeating, Degrading and Cleaning Agent)

Packaging Unit

Aerosol 420ml/can, 20cans/box

Features

PENET OIL P-840 is used various and extensively as dissolution and rust exclusion for machine and bolts and nuts that are adhered by heat and rust with high speed permeation dissolution, washer.

It is used comprehensively to car, space-air, chemistry plant, power plant, steelworks etc. and dehumidification power is excellent so that protects electric leakage of electric appliance or short circuit, protects metal from corrosion and rust and extends life of product.

- Penetrating power and water substitution power are superior by low surface tension and capillary action.
- It is most suitable to Bolt and nut and parts decomposition that are adhered by heat and rust.
- And operates machine softly by dissolution of oily ingredient, and it is effective restoration for submerged equipment.
- Lubrication function is excellent by having durability of abrasion and rub resistance.
- It is suitable for protection (electric leakage and breakdown prevention) of machine part and electric system.

Uses

- **Maintenance of equipment:** aircrafts, military weapons, automobiles, elevators, hoists, air tools and electric equipment.
 - Disassembly of fixated bolts and nuts.
 - Relaxation of pressurized area of machinery for industry, vessel, agriculture and transportation, and home appliances.
 - Cleaning grease, oil dirt, rust and corroded impurities off equipment and machinery.
-

How to Use

- It is more effective to spray after cleaning the debris.
 - For penetration cleaning of rust and various foreign substances, it is effective to wipe with a wiper or brush after a certain period of time has passed after spraying.
 - Spray enough to keep the lubrication and anti-rust protective film uniform.
 - For hard-to-reach places, use an extension tube to spray.
-

Cautions

- Remove dust or dirt off applied surface to apply it.
- Use brush or sand paper to remove rust or scale and apply it.

- Even though it is low-flammable, keep away from fire to spray it.
 - Provide good ventilation for long-time use.
 - Do not use it toward fire.
 - Do not use near heater or stove.
 - Do not use in the room using fire.
 - Do not keep it in the place above 40°C.
 - Provide ventilation to use it in the closed room.
 - Do not throw it away into fire.
 - Punch the can to throw it away.
 - Do not keep it in the closed place.
 - Spraying may not work well below 5°C.
-
