

MOLD RELEASE R-1

Non Paintable Release Agent

Aerosol 420 ml/Can, 30cans/box

Mold Release R-1 is a non-paintable release agent developed by our unique design. This product has best release. Ideal for delicate and precise mold. No residues are remained. Using this product, defect occurrence ratio is reduced. Also, quality improvement, work hour reduction and cost saving are obtained. Additionally, it is used widely for polishing, surface protection and lubrication.

Features

- Excellent lubrication and release
- Quick drying product with excellent release
- No residues remained on mold
- Formation of even film
- Noncorrosive to mold

Applications

Epoxy resin, phenol resin, melamine resin, rubbers, engineering plastics, ABS resin, PVC resin

How to use

Clean foreign substances, carbon and injection molding residues with NABAKEM PMC-3(powerful mold cleaner).
Spray it evenly with 20~30cm away from mold.

Cautions

Remove dust or dirt off applied surface to apply it. Use brush or sand paper to remove rust or scale and apply it.
Do not spray directly onto the face or food. Do not inhale or intake.

Keep it out of the reach of children.

As this is an inflammable product using high pressure gas, keep the following cautions carefully.

1. Do not spray directly toward open flame.

2. Do not use it near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
3. Do not use it in an environment where there are explosive or inflammable materials.
4. Store the product in places where the temperature does not exceed 40 °C.
5. After used in enclosed areas, be sure to ventilate.
6. Do not throw into a fire.
7. After use, throw it away after checking and removal the remaining gas in the container.
8. Do not store it in enclosed area.
9. Below 5 °C, injection power may be poor.
